

G5 Entertainment partners with games industry in the #PlayApartTogether campaign

G5 Entertainment has partnered with games industry peers to disseminate key messages from the World Health Organization to help slow the spread of COVID-19.

The #PlayApartTogether campaign encourages players to follow the WHO health guidelines and adopt healthy practices to help protect their health, families and communities.

G5's CEO, Vlad Suglobov said "Games can be a force for good. This has been our vision at G5 Entertainment since we started almost 20 years ago. Our puzzle games entertain millions of users each month and they are free-to-play. We see that during times of stress our players find relief in our adventures and they engage and connect with fellow players through our games. The reviews we receive praise our games for keeping players entertained and for challenging their logic and puzzle skills. These are difficult times for us all, and through this initiative we can do our part and #PlayApartTogether. If games can help some people get through this, it is the best reward for us as game developers."
